HALL MEDICINE CO. R. M. MCCUNE,

PAINTER 224 Court 86 subject of great interest and persistent study. Not only does it come into ac the hypnotic condition, but also in This second personal ity has been named the subconscious or iminal wif, and it possesses many prious faculties which we have no time to consider here; but, whatever this subliminal self may be, we have in hypnotism the means of experimental ly reaching and influencing it, and this

is where the great power of suggestion

appears and is utilized Suppose, then, the physician has the patient in the deep hypnotic sleep; the patient hears nothing, perhaps feels othing. The physician then says to him: "When you awake you will take the book which lies on the table, ope t at the forty-third page and read for ines at the top of the page." He then awakened. He has heard nothing but his subliminal self, which has been made accessible by hypnotism, has heard, and influences him to carry or the suggestion. He goes to the tab and takes up the book, finds the forty third page, and he reads the four line at the top of the page. He has n thought but that he is doing it all o his own accord, and so he is the is obe; ing the impulse of his own aublimin-

Suppose the patient to be a boy with the cigarette habit, and the physician had suggested as follows: "When you awake you will no longer desire to smoke. On the contrary, the very thought of it will be disagreeable to you, and you will avoid it altogether. He wakes, he knows nothing of what has transpired, but he finds he has no longer the desire to amoke, and conse quently he ceases the practice.-North American Review.

Two little girls were playing gether. One pretended that she Mrs. Lincoln and the other that she wa Mrs. Garfield.
